**LECTURERS:**  
Sec. 1: Dr. Philip Bevilacqua, 242 Chemistry, 863-3812, pcb@chem.psu.edu  
Sec. 2:  Dr. Thomas Mallouk, 224 Chemistry, 863-9637, tom@chem.psu.edu

**OFFICE HOURS:**  
By appointment and as announced in class.

**COURSE WEBSITE:**  
http://courses.chem.psu.edu/chem12H. Please consult the website for supplementary reading assignments, sample exams, homework assignments, and general announcements.

**TEXT:**  

**CALCULATOR:**  
You will need one that can calculate logs and exponentials.

**BACKGROUND:**  
We assume that you have a strong background in chemistry. If you are uncertain, consult your instructor.

**EVALUATION:**  
You will take three evening examinations, and a final examination. The evening examinations will be given on the following dates in a room to be announced:

- Exam 1 Thurs., Sept. 28  8:15-10:15 pm
- Exam 2 Wed., Oct. 25  8:15-10:15 pm
- Exam 3 Wed., Nov. 29  8:15-10:15 pm

Please contact your instructor as soon as possible about scheduling conflicts with the evening exams.

The final exam will be given during the final exam week at a time and place to be announced by the University.

Take-home quizzes will be assigned on an approximately weekly basis. There will also be a small group writing assignment and a number of individual homework assignments. More information regarding these will be provided as the course proceeds.

The relative weights of examinations, quizzes, and other graded assignments in determining your final score, and the relation of that score to your final letter grade will be addressed in class.

**HONOR SYSTEM:**  
Expect to take quizzes on your own, un-proctored, and turn them in to the instructor. This system requires that students avoid discussion of their quizzes with others who have not yet taken them. Academic dishonesty, including any form of cheating, is regarded as a very serious offense and may result in a failing grade in the course. For University policies on academic integrity, please see http://www.psu.edu/ufs/policies.
